

Pro H₂O Alarm Analyzer Case Mounted

SKU: 9607-LB

Price: ?2,584.00

Description

Mounted in a rugged water-resistant case and powered by a rechargeable lithium-ion battery, the Nuvair Pro H₂O Alarm analyzer measures moisture levels in breathing gas mixtures or air. Audible and visual alarms for low and high moisture content can be set by the user. If the alarm sounds, the analog output can activate an optional relay that shuts down compressors automatically or sounds a remote alarm. Sample manifold sold separately.

Features

- Audible and visual alarms for high moisture content
- Universal power options
- Working pressures of 100–6000 psi
- No limit on flow rates
- Programmable alarm thresholds
- Fast response
- Easy to operate, reliable and accurate

Available Options

- Three available external manifold types
- Relay for activating external alarm or compressor shutdown before filter elements saturate
