

MCH6 Auto Drain Assembly

SKU: 6019

Price: ?737.00

Description

Auto drains automate the compressor condensate draining process. This optional compressor feature eliminates the need for an operator to manually drain the compressor every 10 to 15 minutes. Improper condensate drain practices may lead to diminished filter life, increased operation temperature and compressor damage due to water accumulation in the compressor stages resulting in hydraulic backwater failure.

Available Options

SKU	Auto Drain Option	Compatible Compressor
6019	12V (includes solar panel)	MCH6 Portable or Compact Gas
6019.1	110V Control	MCH6 Portable or Compact 110V
