

Fill Panel with Integrated Filtration System

SKU: PN-MARTIN

Price: ?4,672.00

Description

The panel mount filtration package has the option to hold three (3) of the 15-, 25- or 35-inch filter towers or one (1) condensate separator and two (2) towers.

One common use for this panel is added filtration to upgrade the air quality from normal CGA Grade E breathing air to Oxygen Compatible Air (OCA).

The panel comes with flow valves, one 4-inch fill gauge, carbon monoxide (CO)/moisture sight indicator, and fill whip outlets on the bottom.

Panel weight: 121 lb (55 kg) as pictured.

Dimensions (L x W x H): 40 x 32.5 x 10.3 in (101.6 x 82.6 x 26.2 cm)

Please call for additional specifications, available modifications, and production lead times. All Nuvair fill panels are made-to-order at our California production facility.

Please Note: Fill panels are a gas management tool. Fill panels do not generate compressed air. A source of compressed air is required to fill tanks.
