

# Hand Operated Open/Close Valve Brass • 6000 psi

SKU: 816-B

Price: ?234.00

## Description

## Specifications

<b>Type</b>	Open/Close Valve
<b>Maximum Rated Pressure</b>	6000 psi
<b>Maximum Differential Pressure</b>	6000 psi
<b>Inlet Port Size</b>	1/4" MNPT
<b>Outlet Port Size</b>	1/4" FNPT
<b>Outlet Pressure Rating</b>	6000 psi
<b>Leakage</b>	Bubble tight
<b>Weight</b>	1.3 lb (574 g)
<b>Overall Length</b>	4.5"
<b>Hex Diameter</b>	1.38"
<b>Minimum Temperature</b>	-15°F (-26°C)
<b>Body Material</b>	Brass
<b>Internal Materials</b>	Brass Stainless
<b>Seal Materials</b>	Kel-F Viton
<b>Flow Coefficient (Cv)</b>	0.05 (equals 0.07 in orifice)
<b>Special Notes</b>	NOT SHIPPED OXYGEN CLEAN

## Typical Applications

- Test panels where fast, accurate, hand control of pressure is desired
- Gas supply interlocks such as protective doors on charging stations
- Component testing
- Process industry control
- Charging stations where it is desirable to have the supply shutoff if operator releases control
- NOTE: For replacement toggle valves used on all paintball panels manufactured by Nuvair, please see SKU [816-V](#).
