

# Haskel Mini Sport Booster | MSB9000

**SKU:** MSB9000

**Price:** ?4,493.00

## Description

**IN STOCK READY FOR DELIVERY!**

The Mini Sport Booster from Haskel is designed for diving applications that demand performance, reliability and safety at an affordable price. The oil-free 4-inch drive Mini Sport Booster is a compressed air driven, air cooled, non-lubricated, reciprocating piston, single stage type. The approximate size ratio of the air drive piston to the gas piston is 25:1. The Mini Sport Booster is factory cleaned by Haskel for Oxygen Service.

The very small size (L x W x H = 14" x 6" x 6.5") and 12 pounds weight allow it to be conveniently transported. The Mini Sport Booster can fill cylinders up to 3300 psi (228 bar) and it can boost with source gas pressures as low as 100 psi (7 bar). Popular with technical and rebreather divers, the Mini Sport Booster allows deco bottles, oxygen and diluent rebreather cylinders to be filled when low pressure compressed air is the only source of power available. Operating with a drive air pressure of just 140 psi (9.7 bar) means it can be supplied by the LP port of a typical scuba first stage regulator and tank.

For maximum flexibility, the Haskel Mini Sport Booster is offered in a "naked" configuration — less fittings and hose assemblies. The inlet and outlet gas ports accept standard SAE 9/16"-18 fittings and the drive gas inlet accepts a standard NPT 1/2"-14 fitting. The Mini Sport Booster is FAST!

## Specifications

<b>Drive</b>	4" (10 cm)
<b>Ratio</b>	25:1
<b>Weight</b>	12 lb (5 kg)
<b>Max Rated Inlet Pressure</b>	4500 psi (310 bar)
<b>Max Rated Outlet Pressure</b>	4500 psi (310 bar)

**Volume per Cycle** 1.232 in<sup>3</sup> (.0202 L)  
**Max O<sub>2</sub> Pressure Output** 3750 psi (259 bar)  
**Min Gas Supply Pressure** 100 psi (7 bar)

## **Haskel OEM/Distributor**

Nuvair offers authentic parts and equipment manufactured by Haskel® International, an Ingersoll Rand Business. Beware of inexpensive aftermarket imitations labeled as "replacement," "OEM equivalent," "compatible," or "alternative," as they are not made by Haskel International. Due to size, weight, or specific requirements, some Haskel products may not be available for online purchase, and others may have extended lead times.
