

Personal Airgun Inline Filter Kit with Quick Disconnect

SKU: PB-PFILTER

Price: ?229.00

Description

Kit Features Includes:

- Personal Filter Body
- SC000340-M Filter Element
- 3-foot Whip with Quick Disconnect
- Spare Adapters for Reconfiguring Filter to User's Needs
 - 1/4" MNPT × #4 JIC
 - 1/4" MNPT × #4 JIC 90°

For proper filtration, do not fill tanks rapidly as this small filter is made to handle 6-7 CFM air flow. The filter element is clear with litmus paper and should be checked visually for remaining filter life regularly.

Filter Element Warnings

DO NOT drop filter into housing.

REPLACE FILTERS AS A SET.

DO NOT use where operating temperature could exceed 120°F (49°C). Use of a temperature alarm is recommended.

HEAT & HUMIDITY shorten filter life.

DO NOT introduce large slugs of water into filter.

BLOW all lines and parts clear prior to installation.

DO NOT use where pressure surges are likely.

DO NOT use in system without earth ground.

REMOVE all protective seals and closures.

NOT FOR use in aircraft.

ALWAYS follow standard operating procedures (SOP) for producing breathing gases.

MAXIMUM USEFUL LIFESPAN is six months. Shelf life is two years.
