

# Nardi Extreme Hookah 5G 70 · 3.0HP Gas · 13.4 CFM Intake · 7L Tank

SKU: EXN5G073070000GG1600

Price: ?2,998.00

## Description

NARDI offers an extensive range of oil-free hookah compressors. Perfect for shallow diving fun or work, like hull cleaning, pool maintenance, golf ball retrieval, coral reef preservation, and underwater photography, divers breathe air directly from the compact receiver safely thanks to the filtration system equipped with an activated charcoal and molecular grid cartridge. The EXTREME HOOKAH GASOLINE version comes with an easy-to-carry 7L (0.25 cu ft) tank and is equipped with a gas engine, which is perfect for use in areas without electricity. Supplied with a 55.8-foot (17m) hose and regulator with quick-connect fittings. Installed at the factory, an optional 15-foot-long Remote Air Intake (RAI) available for purchase.

## Specifications

- Maximum Recommended Depth: 20 meters (66 feet)
- Maximum Number of Divers: 2
- Duty Cycle: 50% · 40 minutes runtime / 40 minutes rest time
- Air Output at Surface: 237 L/min (8.4 CFM)
- Air Output at 20m (66'): 188 L/min (6.6 CFM)
- Pistons: Ø 70mm
- Fuel: Unleaded Gasoline
- Fuel Tank Capacity: 1.5L (1.6 qt)
- Estimated Runtime on Full Gas Tank: Approximately Two (2) Hours
- Warranty: 12 Months

## Options

- 15-foot-long Remote Air Intake (see dropdown menu, above)

## Hookah Diving Safety Warnings

- **Diving Poses Risks at Any Depth.** This diving hookah should ONLY be operated by individuals with proper training. If you lack suitable training, complete an accredited diving course before using this equipment.
- **Do Not Rely Exclusively on This Diving Hookah for Air While Diving.** While it provides an excellent primary air source, diving hookahs are mechanical devices that can fail unexpectedly due to equipment malfunctions, power interruptions, or air supply disruptions.
- **Always Dive with a Backup Air Source.** A “Bailout Bottle” or “Pony Bottle,” with an integrated regulator, is an ideal secondary air supply. Ensure any backup air source is appropriately sized to allow for a controlled ascent to the surface.
- **Contaminated Air Supply.** The breathing air supplied by this diving hookah is only as safe as the air that it takes in. Always monitor air quality where the diving hookah is positioned. Avoid placing it near boat engines, generators, fuel sources, or batteries, as these can contaminate the air.
- **Carbon Monoxide.** This diving hookah produces carbon monoxide (CO). Nuvair recommends the purchase of the optional 15-foot-long Remote Air Intake (RAI) on all gasoline-powered diving hookahs. The user is responsible for ensuring carbon monoxide does not enter the diving hookah. The diving hookah intake must be located away (upwind) from engine exhaust [[OSHA 29 CFR 1910.430 \(B\)\(2\)](#)], at least 6 feet above ground and 12 feet away from the exhaust. Always use a [carbon monoxide \(CO\) analyzer](#) on diver air supply and a breathing air filter rated for use on gasoline-powered diving hookahs ([AC036-102](#)).

## **DANGER**

### **USER IS RESPONSIBLE**

**Air compressor intakes must be located away (upwind) from engine exhaust.**

**It must be at least 6 feet above ground and 12 feet away from the exhaust.**

**[OSHA 29 CFR 1910.430 (B)(2)]**

**Always use a carbon monoxide (CO) analyzer on diver air supply.**

## Nardi Compressori OEM/Distributor

Nuvair offers authentic parts and equipment manufactured by Nardi Compressori. Beware of inexpensive aftermarket imitations labeled as "replacement," "OEM equivalent," "compatible," or "alternative," as they are not made by Nardi Compressori Srl. Due to size, weight, or specific requirements, some Nardi products may not be available for online purchase, and others may have extended lead times. To confirm compatibility with your existing equipment or to ensure the product meets your needs, please [contact the Nuvair Sales Team](#) for ordering assistance by email or phone.

**Nuvair.com Ships FedEx®**

Nuvair.com automatically calculates shipping costs using FedEx® rates. For larger items like compressors, more cost-effective shipping options may be available. FedEx® fees vary based on factors like service type, destination, and whether it's a residential or business address. Shipping to a [FedEx Ship Center](#)® can be significantly cheaper than shipping to a residential address. For a full list of FedEx® shipping options across the U.S. and over 200 other countries, [click here](#). If you would like to explore alternative shipping methods or arrange for free pick-up at our Southern California facility, [contact the Nuvair Sales Team](#) by phone or email.
