

# Nardi T-Coupling for Dual Hookah Hoses

SKU: AC036-113

Price: ?118.72

## Description

### Hookah Diving Safety Warnings

- **The Nardi T-Coupling for Dual Hookah Hoses is for use with diving hookahs rated for more than one (1) diver.** Consult your instruction manual to determine if your diving hookah can supply sufficient air for more than a single diver. Nardi diving hookahs with 3-liter air tanks are not approved for use by more than one (1) diver.
- **Diving Poses Risks at Any Depth.** This diving hookah should ONLY be operated by individuals with proper training. If you lack suitable training, complete an accredited diving course before using this equipment.
- **Do Not Rely Exclusively on This Diving Hookah for Air While Diving.** While it provides an excellent primary air source, diving hookahs are mechanical devices that can fail unexpectedly due to equipment malfunctions, power interruptions, or air supply disruptions.
- **Always Dive with a Backup Air Source.** A “Bailout Bottle” or “Pony Bottle,” with an integrated regulator, is an ideal secondary air supply. Ensure any backup air source is appropriately sized to allow for a controlled ascent to the surface.
- **Contaminated Air Supply.** The breathing air supplied by this diving hookah is only as safe as the air that it takes in. Always monitor air quality where the diving hookah is positioned. Avoid placing it near boat engines, generators, fuel sources, or batteries, as these can contaminate the air.
- **Carbon Monoxide.** Nuvair only sells gasoline-powered hookahs with a 15-foot-long Remote Air Intake (RAI). The user is responsible for ensuring carbon monoxide does not enter the diving hookah. The diving hookah intake must be located away (upwind) from engine exhaust [[OSHA 29 CFR 1910.430 \(B\)\(2\)](#)], at least 6 feet above ground and 12 feet away from the exhaust. Always use a [carbon monoxide \(CO\) analyzer](#) on diver air supply and a breathing air filter rated for use on gasoline-powered diving hookahs ([AC036-102](#)).

Nardi Compressori OEM/Distributor

Nuvair offers authentic parts and equipment manufactured by Nardi Compressori. Beware of inexpensive aftermarket imitations labeled as "replacement," "OEM equivalent," "compatible," or "alternative," as they are not made by Nardi Compressori Srl. Due to size, weight, or specific requirements, some Nardi products may not be available for online purchase, and others may have extended lead times. To confirm compatibility with your existing equipment or to ensure the product meets your needs, please [contact the Nuvair Sales Team](#) for ordering assistance by email or phone.
