

# One-Time (1x) Air/Gas Test Kit

**SKU:** 1XTEST

**Price:** ?0.00

## Description

### Air/Gas Testing Overview

Does the compressed gas produced by your system meet national/international standards like CGA, CSA, IANTD, ISO, NFPA or NOAA? If you don't know that answer, we can help! Air/gas specimen sample trapping is easy. This page is for one-time (1x) testing as part of a regularly scheduled gas testing program. Everything needed for a air/gas test is provided in the test kit. (View YouTube demonstration video, right.)

To maintain the integrity of your air/gas production, you must adhere to a quality assurance program. As part of the program—especially in the case of critically pure gases—it is prudent to include analysis of the result gas. You want to employ a third-party lab to perform these unbiased analyses. A lab that uses precise scientific methods; a lab with international accreditation and a global presence. We are here to help.

Our contract testing facility has over 30 years experience in the industry and is fully accredited to ISO 17025. All records are maintained indefinitely. Quality control processes include daily instrument checks and using processed approved by equipment manufacturers. Available test standards are described below.

### How to Select The Right Air/Gas Test Kit

#### 1. HOW OFTEN DO YOU WANT TO TEST YOUR AIR/GAS?

Continue on this page if you want one-time (1x) testing.

#### 2. WHAT AIR/GAS TEST DO YOU WANT TO CONDUCT?

First, select which type of air/gas test you would like to conduct. Click on CUSTOMIZE AND ADD TO CART button (above) to start.

#### 3. WHAT TEST KIT DO YOU NEED?

Next, select the test kit you need. A special manifold, adapter/s, and shipping supplies are required for air/gas testing.

## Available Air/Gas Test Kits

### Example of Multi-Adapter Air/Gas Test Kit (SKU SLP-CGAE-1X-ADP-KIT)

Nuvair offers the following test kits for one-time (1x) testing:

- **SLP-CGAE-1X-347**

One-Time (1x) CGA347 SCBA Adapter Test Kit includes:

- Sampling manifold
- CGA347 adapter
- Carboard insert that identifies and holds manifold and adapter/s
- One (1) air/gas sample test bag
- Customer information card
- Return shipping label

- **SLP-CGAE-1X-ADP-KIT**

One-Time (1x) Multiple Adapter Test Kit includes:

- Sampling manifold
- 1/4" NPT adapter
- INT/Yoke Scuba adapter
- CGA346 adapter
- CGA347 adapter
- Carboard insert that identifies and holds manifold and adapter/s
- One (1) air/gas sample test bag
- Customer information card
- Return shipping label

- **SLP-CGAE-1X-LP**

One-Time (1x) 1/4" NPT LP Adapter Test Kit includes:

- Sampling manifold
- 1/4" NPT adapter
- Carboard insert that identifies and holds manifold and adapter/s
- One (1) air/gas sample test bag
- Customer information card
- Return shipping label

- **SLP-CGAE-1X-YOKE**

One-Time (1x) Scuba (INT/Yoke) Adapter Test Kit includes:

- Sampling manifold
- INT/Yoke Scuba adapter
- Carboard insert that identifies and holds manifold and adapter/s
- One (1) air/gas sample test bag
- Customer information card
- Return shipping label

- **SLP-CGAE-1X**

Single Air/Gas Test Bag · No Air Test Kit Required

- Choose this option if you already have a test kit (manifold and adapter/s) available to you. **A test kit is required to trap an air/gas specimen sample for testing.**

### One-Time (1x) Test Kit Types

Customers may return the test kit manifold and adapter/s for a refund. When the test kit and all parts are returned to the testing facility, Nuvair will issue a refund for the manifold and each adapter returned in working condition.

**Nuvair.**

16. To return the test kit with the test bag: Place the cardboard insert on top of the test bag. Place the foam piece on top of the insert. Put the information card back into the envelope and place it on top of the foam piece.
17. Close and seal the box. Affix the return label on the box—preferably on the bottom—and ship it to the testing company directly. USPS Priority Mail seems to be the most economical and fastest way, but you can ship the test kit and/or test bag with the carrier of your choice.

**NOTE: Do not ship test kits or test bags to Nuvair.**
