SKU: RI-PFILTER

Price: ?229.00

## Description

Kit Features Includes:

- Personal Filter Body
- 3 ft Whip with Quick Disconnect
- 1/4" Brass Female End Plug Open Flow Hose Coupling | 6537K11
- Choice of Industrial Drying Air (SC000340-M) or Tri-Chem Breathing Air (SC000340-MHC) Filter Elements
- Spare Adapters for Reconfiguring Filter to User's Needs
  - 1/4" Brass Female Open Flow Quick Disconnect | 6537K73
  - Swivel Nut Male Adapter 1/4" MNPT x #4 Female JIC Swivel Steel | 53-4-4

For proper filtration, do not fill tanks rapidly as this small filter is made to handle 6-7 CFM air flow. The filter element is clear with litmus paper and should be checked visually for remaining filter life regularly.

## Filter Element Warnings

**DO NOT** drop filter into housing.

**REPLACE FILTERS AS A SET.**

**DO NOT** use where operating temperature could exceed 120°F (49°C). Use of a temperature alarm is recommended.

**HEAT & HUMIDITY** shorten filter life.

**DO NOT** introduce large slugs of water into filter.

**BLOW** all lines and parts clear prior to installation.

**DO NOT** use where pressure surges are likely.

**DO NOT** use in system without earth ground.

**REMOVE** all protective seals and closures.

**NOT FOR** use in aircraft.

**ALWAYS** follow standard operating procedures (SOP) for producing breathing gases.

**MAXIMUM USEFUL LIFESPAN** is six months. Shelf life is two years.
