

Kunkle Model 330 Safety Valve • 7000 psi

SKU: 330SUA01-KC7000

Price: ?1,500.00

Description

ON SALE NOW! LIMITED QUANTITY ON HAND.

Features

- Lightweight aluminum construction is resistant to environmental and internal corrosion.
- Repetitively consistent opening pressure.
- Smooth relief action.
- Positive reseating with minimal pressure drop.
- Soft seat provides repeatable leak-tight performance; allows reduced maintenance costs, multiple cycles with tight shut-off and high seating integrity.
- Model 330 series' differential mechanism maintains a predetermined seat contact load.
- Full spring load is never imparted to seat.
- Seat tightness increases as inlet pressure approaches set (opening) pressure.
- Each valve tested and inspected for pressure setting and leakage.

Specifications

- Temperature Range: -20 to 185°F (-29 to 85°C)
- Pressure Range: 1000 to 5500 psi (69 to 379.3 bar)
- Codes: ASME VIII, XIII and PED¹

¹PED certification limited to a maximum of 7000 psi (482.8 bar).
